

Empowering Planet with Knowledge

Gurgaon Based Education Organization

Gurgaon, May 1, 2014 – Today new industry challenges are data security, virtualization, cloud etc. Quantum has taken the initiative to train the professionals to avail the new career avenues that have opened up due to these new verticals in the industry.

Quantum is proud to announce its partnerships with **Red Hat, Exin** and **ASQ** for much in demand programs.

Quantum is a leading organization in education industry. It offers training and certification in **Six Sigma, PMP, ITIL, IFRS, PMI-ACP, Quality Management, Service Management, Cloud Computing, Cyber Security, Prince2** and more than 80 other programs.

Six Sigma

As we know, every company wants to deliver the quality product to its customer. This is the need of each and every industry whether it is Health, IT, Automobile, Pharma, Hospitality, construction, etc.

To understand the need, Motorola introduced the Six Sigma tool. This is the tool that helps the industry to obtain **3.4 DPMO** in their respective task. And that is the reason that every company wants employees to be Six Sigma certified. Six Sigma has two most important segments that are **Six Sigma Green belt and Black belt**.

Quantum is the leader in Online Professional Training and Certifications. We are proud to introduce these two courses in our product catalogue to help professionals around the globe to realize their career dreams by filling in the gap in their education through quality online education.

Quantum offers certification in more than 80 courses such as PMP, ITIL, Cloud, Prince2, Six Sigma Green Belt, Black Belt, Financial Risk Management and many more across the globe. Quantum is affiliated by the premier global certification bodies, such as **EXIN(R), Red Hat, ASQ**.

PMP Makes Project Successful

Project management is a project management technique. This is the technique that every company expects in their managers or leaders. Because without proper management skills company cannot make project successful hence lose customers.

PMP (Project management professional) is the only certification in the world that makes project **100%** successful. This is the course that is much in demand across the globe. If the facts are to be believed there will be **15.7 Million PM Jobs** in the Market and **3,975,650 Projects** in India only.

Quantum is the leader in Online Professional Training and Certifications. We are proud to introduce this course in our product catalogue to help professionals around the globe to realize their career dreams by filling in the gap in their education through quality online education.

Quantum offers certification in more than 80 courses such as PMP, ITIL, Cloud, Prince2, Six Sigma Green Belt, Black Belt, Financial Risk Management and many more across the globe. **Quantum** is affiliated by the premier global certification bodies, such as **EXIN(R), Red Hat, ASQ**.
